

What's for Dinner?

**If you burn trash in your campfire,
you could be eating poison.**

- Burning trash emits toxic gases and heavy metals like lead and mercury.
 - Dispose of trash properly by using trash cans, dumpsters, and recycling receptacles.
 - Burn only firewood - never burn plywood, treated wood or painted wood.
- Protect your family
and the great outdoors.**

Don't Burn Trash in Your Campfire.

For more information or to report illegal burning,
call the Kentucky Division for Air Quality at
1-888-BURN-LAW (888-287-6529)
